Summary

Full-Stack Web Developer with experience in building scalable web applications and data-driven solutions. Skilled in MERN Stack, Laravel, and Python, with hands-on experience in machine learning and deep learning. Also skilled in digital marketing, applying analytics and performance tracking to support business growth and user engagement.

Technical Skills

Full-Stack Development: MERN Stack & Next.js, TypeScript, Laravel (Livewire), Flask, WordPress

Data Science & AI: Python (NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow), Probability, Machine Learning, Deep Learning & Neural Networks, Large Language Models, Retrieval-Augmented Generation, MS Excel, MySQL, Tableau, Power BI

Digital Marketing: Facebook Ads, Google Ads, Web Analytics, Conversion Tracking (Meta Pixel, GA4, CAPI)

Tools: Git & GitHub, Figma, Jira, Meta Ads Manager, Google Analytics

Soft Skills

Problem Solving, English, Time Management, Communication & Team Collaboration

Work Experience

StyleSilo — Founder & Brand Manager

Sept 2024 – Present

- Created and managed a WooCommerce-based e-commerce website for women's clothing items.
- Developed and ran Facebook ad campaigns, increasing page reach and customer engagement.
- Handled end-to-end product listing, order management, and customer communication.

RequindBD — Intern, Marketing & PR

May 2025 – October 2025

- Managed email campaigns on Brevo, LinkedIn organic marketing, and Facebook paid ads, supporting lead generation and audience engagement.
- Conducted brand and platform audits, client campaign analysis, and YouTube SEO to optimize digital presence and performance.
- Wrote captions, copy, and storytelling content, ensuring alignment with brand voice while collaborating with designers for creative assets.
- Supported event planning, idea generation, and presentations, contributing to marketing strategies and campaign execution.
- Organized team tasks in Google Sheets and participated in personal branding sessions to strengthen marketing and PR skills.

Projects

Web Development Projects:

- Expense Tracker App with MERN Stack – Real-time CRUD operations with MongoDB for expense tracking.
- Blog App with Next.js, TypeScript, and TailwindCSS – SEO-optimized blog with SSG and SSR.
- Responsive React Corporate Website – Built a mobile-friendly layout for portfolio and business use.
- Full-Stack E-Commerce App – Simulated store functionality with cart, orders, and admin panel.

- Full-Stack Notebook App – Secure login with JWT and note-saving in MongoDB.
- Full-Stack POS App – Inventory and billing system for small businesses.
- NewsApp – Displayed categorized news articles using an external API.
- WorldInfo API – Fetched and visualized global data using REST API.
- Library Explorer – Fetched and visualized book data using REST API.

Data Science & AI Projects:

- Excel, MySQL, Tableau, Power BI Dashboards – Analyzed trends and KPIs using SQL and visual dashboards.
- Python Data Analysis Projects – Cleaned and visualized data using pandas, matplotlib, and seaborn.
- Machine Learning & Deep Learning Projects – Developed regression, classification, and neural networks models including CNNs for image-based datasets.
- RAG-Based AI Teaching Assistant – Built preprocessing pipeline and embeddings system for retrieval.

Digital Marketing Projects:

- GA4 and Facebook Pixel Setup with Server-Side Tracking (CAPI) – Enhanced tracking using Google Tag Manager.

Education

Bachelor of Science in Computer Science & Engineering

Expected Graduation: Feb 2027

United International University, Madani Avenue, Dhaka

Certifications & Courses

Complete Backend with Node.js – ProCoderr

Data Analytics – Alex The Analyst

Data Science – CodeWithHarry

Facebook Ads, Google Ads, Analytics – SkillUpper

Business Fundamentals, WooCommerce – StepUp

Languages

Bangla: Fluent

English: Intermediate

Hindi: Basic
